

2011-2012 Career Planning Guide

Automotive – Brakes Specialist

Shoreline Community College
16101 Greenwood Avenue North
Shoreline, Washington 98133

Length of Program: 38 credits, 3 quarters
Completion Award: Certificate of Completion
Program Advisors: See Jacquie Ogilvie for Appropriate Program Advisor (206)-546-5851
jogilvie@shoreline.edu <http://www.shoreline.edu/auto>

Approximate Quarterly Costs:

Check quarterly class schedule for Tuition Table
Parking and additional instructional fees per quarter: \$15
Uniform Fee: \$62.95
Books: \$75-\$150
Tools and equipment: approximately \$4000 (Dealership experience only)
Enrollment: Fall, Winter, Spring, Summer

PROGRAM DESCRIPTION

Shoreline Community College offers four Specialist Certificates of Completion for students who are interested in entering the automotive service industry. These certificates are only available to students in one of the manufacturer-specific programs. Those programs include the General Motors (ASEP), Toyota (T-TEN), Honda (PACT), or Chrysler (CAP) programs. The Automotive Program provides students with the fundamental skills to succeed in the workplace along with valuable hands-on experience. Students alternate quarters between classroom instruction and paid worksite training. As students progress through the curriculum, they learn about the major automobile components and systems, including brakes, suspension, emissions, transmissions, electrical systems, heating and air conditioning, power trains and engine management systems. Students develop skills in automotive diagnostics, tune-ups and repairs. Students will also develop an understanding of automotive service business principles as they apply to the service technician. In their internship placement, students work under the guidance of a master technician at a sponsoring approved repair facility. These paid internships give students the opportunity to integrate their learning and further develop their skills in automotive service technology. Students will have to complete additional requirements in addition to completing all four automotive certificates in order to be awarded manufacturer-specific certification. These additional requirements are specific to the individual programs. This certificate requires that the student complete the on-campus classes followed by a qualifying co-op work experience.

PROGRAM OUTCOMES

Students who successfully complete this program should be able to:

1. Apply fundamentals of automotive service training, including the basics of automotive diagnostics and repair, pre-delivery inspection and warranty repair procedures.
2. Identify, inspect, disassemble and assemble basic components of automotive power plants.
3. Apply knowledge of the function, construction, operation, troubleshooting and servicing of disc, drum and ABS brake systems, steering, suspension and wheel alignment.
4. Use electronic engine analyzers and scanners to test and tune ignition, fuel injection and emission systems.
5. Apply understanding of electrical principles, semi-conductors, microprocessors and wiring diagrams to diagnose and repair malfunctions of automotive electrical systems.
6. Apply knowledge of the function, construction, operation, troubleshooting and service of front- and rear- wheel drive, manual and automatic transmissions and transaxles.
7. Test, service and repair heating and air-conditioning systems.

Career Ladder Short-Term Programs

Automotive Service Technology: Automotive – Brakes Specialist

CAREER OPPORTUNITIES

The placement rate for this program is 100%. Upon completion, students are usually hired by their sponsoring dealership. The demand for dealer-trained technicians should remain strong over the next decade. For employment outlook, see the U.S. Dept of Labor Occupation Outlook Handbook at www.bls.gov/OCO/.

POTENTIAL POSITIONS

Automotive Service Technician. With additional experience many technicians can become a Parts or Service Manager; some may seek positions in sales, management or open their own related business. Entry-level salaries range from \$ 24,000 to \$ 30,000 depending on location and the individual's production abilities.

PROGRAM PREREQUISITES

Minimum COMPASS Test Scores for Numerical Skills (34-45), Writing (45-54), Reading (44-53) or placement into ENGL& 101

Sponsorship by a Participating Approved Repair Facility

Valid Driver's License

Proof of Insurability

Some Dealers Require Drug Testing

Instructor Interview
